

EVIDENCE

THERE IS EVIDENCE

BY
REV. CARL L. KELLEY

Welcome to the first newsletter of the Creation Evidence Expo. My name is Rev. Carl L. Kelley recently nominated as Marketing Director of the Creation Evidence Expo this past summer. I can't tell you how excited I am to be associated with this mission. For the last twenty years I have been preaching that God Created the Heavens and the Earth, but sometimes I felt like I was all-alone in my quest, until I met Rev. Fredrick Boyd Pastor of Zion Unity Missionary Baptist Church. On that day I realized that I was not crying in the wilderness! I had an ally that believed that Genesis 1:1 is true. God did Create the Heavens and the Earth and there is Evidence to prove it.

I would like to take this time to present proof that God is behind our mission by presenting to you our new Marketing Manager Mr. Johan Bos. Joohan is a Renowned author and television Producer, and director who consistently has programs running on PBS, NBC, ABC, ESPN and other Cable networks.

Johan Answered the call of God to Join the Creation Evidence Expo and last month moved his whole family a Wife and 6 Six beautiful children from Seattle Washington, to Indianapolis to help with our Mission. Johan is truly a modern-day Abraham who answered the call to go where God wants us to be. You will be hearing more from Johan in the near future, until then Welcome Aboard Johan and my God Continue to Bless and Keep You and your family in his Loving arms as you follow his directions for your life and the Creation Evidence Expo.

Last September I had a chance to be a fly on the wall. Have you ever wanted to be able to ease drop on a conversation that you knew was important but you also knew that you felt inferior to the individuals holding the conversation? Well I want to tell you that I got that opportunity last September when I got the chance to listen in on the dialogue between some of the greatest minds in the research for the evidence that proves that God did Create the Earth and Man!

I was the fly on the wall that got to listen in on the conversation with Dr. John Whitcomb, Dr. Carl Baugh, and Dr. Willie Dye. These are men who have dedicated their lives to the research and discovery of some of the Greatest Archeological and Scientific Evidences that there is a Creator or an Intelligent Director of the Creation of the universe.

I got the chance to hear Dr. Carl Baugh explain the Baluxie river evidence in Glinnrose Texas, that Man roamed the earth at the same time as Dinosaurs with the discovery of dinosaur footprints that have Human footprints walking across before the mud had a chance to dry.

It was fascinating to listen to Dr. John Whitcomb explain how the different human races were formed after the separation of the people after the tower of Babel, How the various races of the world were formed through inbreeding and climatological adaptations over time. Dr. Whitcomb Logically and scientifically explained how we developed into White (Caucasians), Blacks (Africans), Yellow (Asians), Red skins (The Indians) through the inbreeding of the people as they segregated themselves into various ethnic groups as they spread across the earth after God confused their languages.

Dr. Willie Dye showed the artifacts and cuneiforms that validate the history that is written in the Bible and passed down through the ages.

I'm so excited that I can proclaim without a doubt that **God Did Create the Earth and God did Create Man!**

Charles Darwin himself said in his writings that "I am quite conscious that my speculations run beyond the bounds of true Science...". Charles Darwin called his own theories on evolution speculation, guesses, and probable untruths, couldn't be supported with the known scientific methods of that day. Nor can they be validated using today's scientific methods! Yet we allow our educational systems to put forth this Darwinian Speculation as fact when they can't prove that one, one celled creature evolved into a two celled creature.

Do you realize that you cannot get a PHD from any accredited University in the United States with a statement that Creation is a fact, or that Evolution is a Lie, even though the Evidence overwhelmingly proves

REV. CARL L. KELLEY

this as fact. This whole Idea of the promotion of Evolution as a fact finds it's roots in the Humanist Manifest I and II (1933 Raymond Bragg) "We deplore the division of humankind on nationalistic grounds.

1-Religious Humanists regard the universe as self-existing and not Created.

2-Humanism believes that man is a part of nature and that he has emerged as the result of a continuous process.

8-Religious humanism considers the complete relationship of man's life and seek it's development and fulfillment in the here and now.

The Humanist stated goal is to deny the existence of God, his Creation of the Earth and His creation of man, as a dedicated purpose and Goal of their Religious evangelism. The humanist stated goal is to "reject all religious, ideological, or moral codes that denigrate the individual autonomy consonant with social responsibility".

This is why I believe that The Theory or Speculation on the process of Evolution is such a danger to our Educational system. The promulgation of this false Ideology that cannot be supported with factual evidence must be challenged on every stage that it is presented on.

Evolutionist won't debate the facts of Evolution verses the facts of Creation because they have no facts to stand on. Nor will they debate the pure facts of evolution, and the false facts that they put forward to support their speculation, because their supposed fact continually are proven to be guesses, fabrications or outright falsehoods.

I challenge any one to debate me Rev. Carl Kelley (an ordained Itinerant Minister in the CME Church), or Dr. Carl Baugh, or Dr. John Whitcomb to debate any of us on the facts of Evolution! And if they have the guts to debate us on the facts of Creation! I admit that I claim no parallel to the qualifications of Dr. Carl Baugh, or Dr. John Whitcomb but I feel I have to have some skin in the game for my challenge. I believe that Genesis 1:1 is true God Created The Heavens and The Earth, and we can prove it.

The Evidence that was present in our September Expo was so powerful that it excited a retired Schoolteacher (Elizabeth L.) from Lebanon In. to ask questions that she had for many years and now she had the resources to provide the answers. Elizabeth was so excited that she said that she wanted to join our work and do what ever we needed. She said and I quote "let me know what ever you need I can even clean a mean toilet if you need it". This is an example of the enthusiasm and excitement that this mission can generate. I hope that God will light a fire in you to join our mission and invite our presenter to your meetings to share the mission and evidence of the fact that the first 11 (Eleven) Chapters of the bible are true and God has a plan for us. We will go almost anywhere to spread the message and evidence that God created the earth and he Created Man.

Check out our newly updated website at <http://creationevidenceexpo.org> and see some of the latest scientific evidence of the science that proves that evolution is false, and joint our crusade for the truth that there is an intelligent design to mans existence by taking out a family membership, a business or corporate membership, or just a donation to support or mission.

Gen. 1:1 God created the heavens and the earth.
And I believe it! May God Bless and keep you in his loving arms.
